KOBELCO

Hydraulic Excavator

-7 SERIES

SK380SRL

KOBELCO

■ Bucket Capacity:

0.75-1.875 cu.yd. SAE

■ Engine Power:

265 hp {198 kW} @ 1,900 rpm (SAE NET)

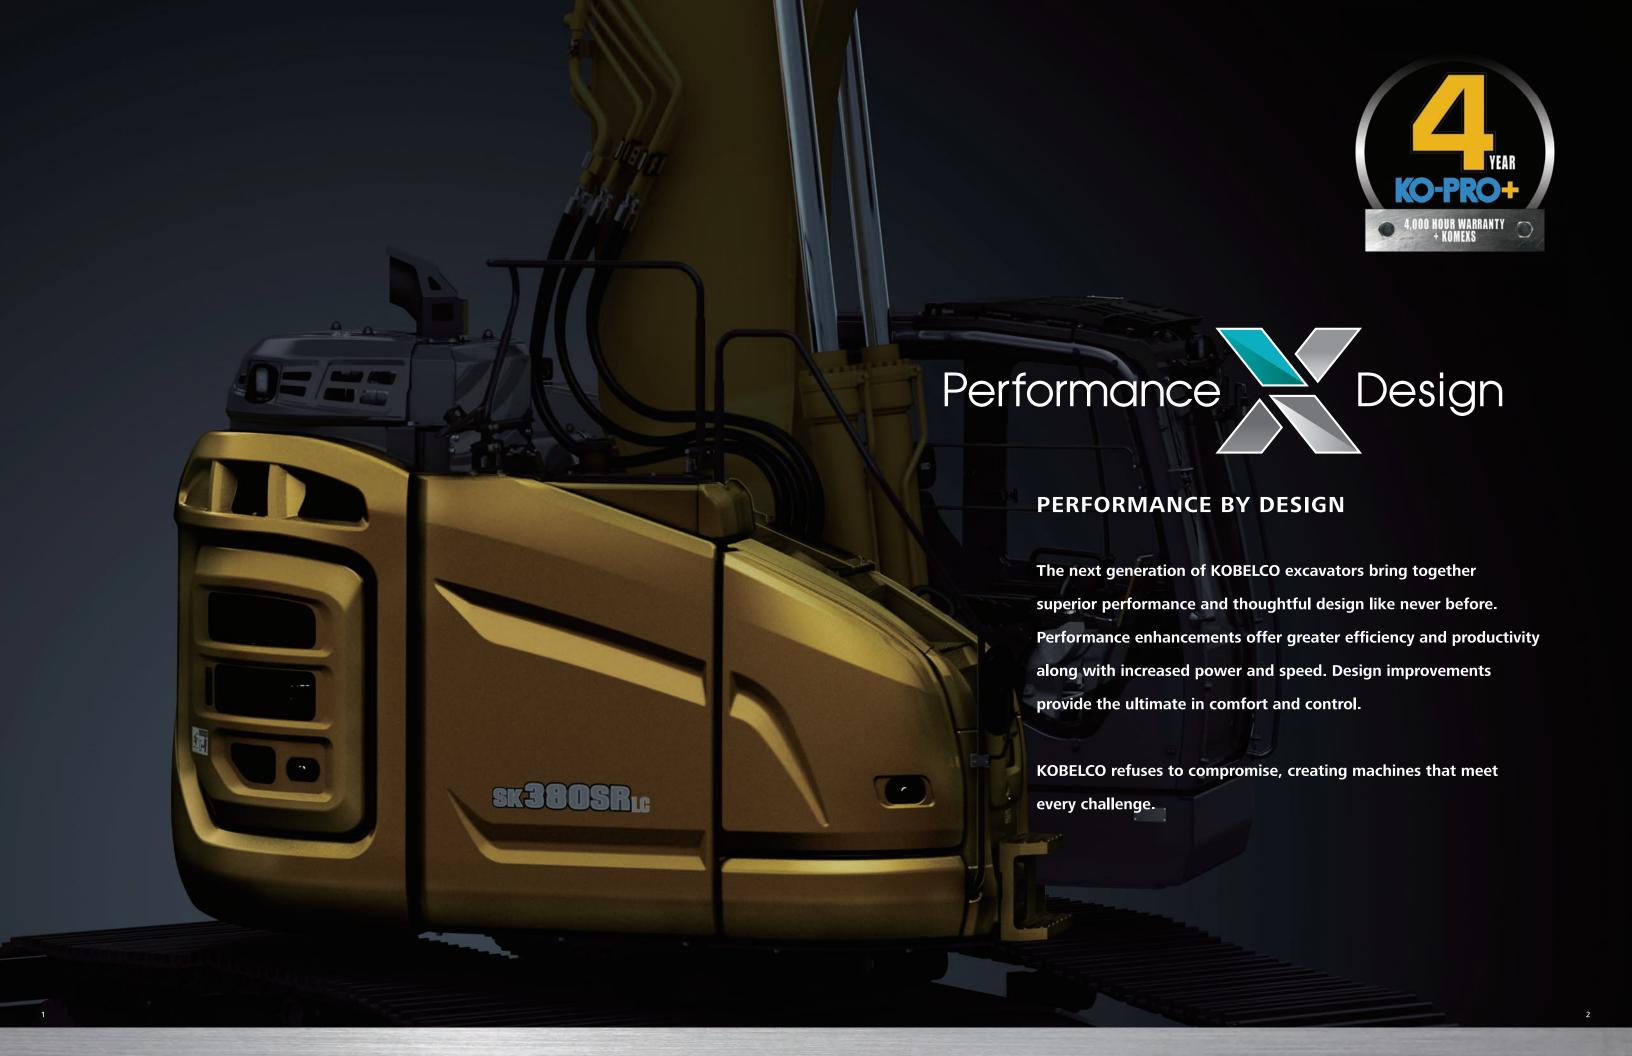

■ Operating Weight:

83,600 lb {37,900 kg} -84,700 lbs {38,400 kg}

KOBELCO

Complies with the latest exhaust emission regulations

EXCEPTIONAL PERFORMANCE JUST GOT EVEN BETTER

Higher Efficiency, Plus a Tier IV Final Compliant Engine

The new SK380SR is equipped with a Isuzu Tier IV Final compliant engine, which has a higher torque value.

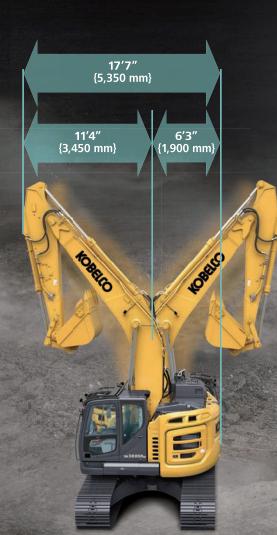

This engine is fitted with a diesel oxidation catalyst (DOC) and an SCR device to control emissions without using a diesel particulate filter (DPF).

Model: ISUZU 6HK1

Rated Power Output

265 hp {198 kw}/1,900 rpm (SAE NET)

Short radius design occupies only one lane of highway

In addition to excellent lifting and digging performance, the SK380SR has adopted the attachment mode for a variety of tasks such as breaking and operates effectively even in narrow spaces as a single highway lane. Moreover, the cab permits operators to concentrate on work in a wide and comfortable space.

SAFETY ON FULL DISPLAY

Standard 3 Sides Safety Camera System

Our high-resolution, large display shows right, left and rear side cameras together. Multiple display allows the operator to customize viewing needs to enhance operator awareness and jobsite safety.

Large 10-Inch Color Monitor

The easy-to-operate menu screen and recognizable icons assist the operator to select the most important information needed to ensure jobsite safety and machine control.

Dial in the Right Information

Simply turn the jog dial to the right or left to select an operational feature, then press the dial to confirm selection.

PREMIER OPERATOR COMFORTS

Heated Air Ride Suspension Seat

A 7-way adjustable seat achieves excellent shock absorption and superior ride comfort.

Multi Vent Air Conditioner

Cool air is blown from multiple outlets toward the operator's body for more comfortable operation.

Ergonomic Lever Angles

Operators can move levers horizontally without twisting their wrists, reducing fatigue.

Adjustable Height Joysticks

Joystick height is manually adjustable to suit operator's preference.

LED Interior Light

Interior lights turn on and off automatically when the door is open or the ignition is turned to the OFF position.

This ensures safe entry and exit in the dark.

Tilting Left Side Console

Flip-up left console with integrated pilot control lock lever tilts for easy entry and exit from the cab.

EASY MAINTENANCE

Standard Overhead Top Guard Level II

The standard overhead cab guard can be tilted open with gas damper for easy window cleaning. Meets standard top guard level II requirements. (ISO 10262)

Ground level storage compartment access

Two-Stage Air Filter

Provides superior cleaning and engine

Right Side (Ground Level Maintenance)

Hydraulic pump and engine filter compartment.

Ground level DEF tank

Control valve
Cleanly mounted with easy access to test

Fuel filters

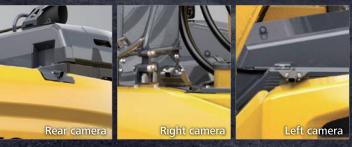

Main Filter / Pre-Filter with Integrated

Water Separator.

Engine Oil Filter
Remote mounted for easy maintenance.

SAFETY AND CONVENIENCE IN EVERY CORNER

Standard Rear, Left and Right Side Cameras

Swing Flashers for a Safer Jobsite

Standard swing flashers notify ground workers that the machine is swinging.

Travel Alarm

Seatbelt Unfastened Indicator On Monitor

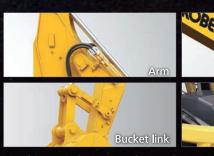

Standard 7 LED Lights
Bright LED lights ensure visibility even during night work.

Wire Mesh or Vertical Bar Front Cab Guard (optional)

Battery Disconnect Switch with DEF Purge Notification Buzzer

Machine Guidance Ready Brackets
Pre-welded brackets for quicker and easier installation of
Machine Guidance Systems.

Quick Coupler Piping Brackets

Adjustable Height Joystick Consoles

The operator can adjust height of attachment control levers.

Hands-Free Bluetooth® Phone Calls

USB Charging Port / 12V Power Outlet

Smartphone Holder Includes USB port for charging.

Specifications

Model	ISUZU 6HK1
Туре	Direct injection, water-cooled, 4-cycle diesel engine with turbocharger, intercooler, Tier IV Final certified
No. of cylinders	6
Bore and stroke	4.5" × 4.9" { 115 mm × 125 mm }
Displacement	475.4 cu.in { 7,790 ml }
Rated power output	265 hp {198 kW} /1,900 rpm (SAE NET)
Mated power output	282 hp {210 kW} /1,900 rpm (Without fan)
Max. torque	745 lb-ft {1,011 N·m} / 1,500 rpm (SAE NET)
Max. torque	797 lb-ft {1,080N·m} / 1,500 rpm (Without fan)

Note:

- 1. Do not attempt to lift or hold any load that is greater than these lift capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above lift capacities.
- 2. Lift capacities are based on machine standing on level, firm, and uniform ground. User must make allowance for job conditions such as soft or uneven ground, out of level conditions, side loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc.
- 3. Bucket pin attachment point defined as lift point.
- 4. The above lift capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lift capacity or 75% of tipping load. Lift capacities marked with an asterisk(*) are limited by hydraulic capacity rather than tipping load.
- 5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.
- 6. Lift capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.

Total Support for Machines with Network Speed and Accuracy

KOMEXS is a telematics system for receiving machine information. Manage your machines anywhere in the world using the Internet. Location, workload and diagnostic data aid business operations.

KOBELCO service personnel/dealer/customer

Direct Access to Operational Status

Location Data

Accurate location data can be obtained even from sites where communications are difficult.

Latest location

Operating Hours

A comparison of operating times of machines at multiple locations shows which locations are busier and more profitable. Operating hours on site can be accurately recorded, for running time calculations needed for rental machines, etc.

Daily report

Fuel Consumption Data

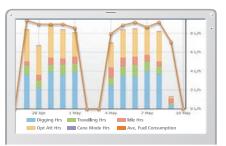

Data on fuel consumption and idling times can be used to indicate improvements in fuel consumption.

Work mode	Working Hrs	Total Fuel Consumption
i mode	2:06	24.5 L
mode	0:00	0.0 L
E mode	169:19	1489.7 L
TOTAL	171:25	1514.2 L

Fuel consumption

Graph of Work Content

The graph shows how working hours are divided among different operating categories, including digging, idling, traveling, and optional operations (N&B).

Work status

Maintenance Data and Warning Alerts

Machine Maintenance Data

Provides maintenance status of separate machines operating at multiple sites. Maintenance data is also relayed to KOBELCO service personnel, for more efficient planning of periodic servicing.

	0.8/0.7	349 HI	490 111		
SK75SR-	YT08-30374				

Warning Alerts

 This system warns an alert if an anomaly is sensed, preventing damage that could result in machine downtime.

Security System

Engine Start Alarm

Sends a notification if the engine is started outside of pre-defined hours.

Area Alarm

Sends a notification if the machine leaves a pre-defined area.
